About The Department

The department of Civil Engineering was established in the year 1981 with an intake of 60 students for diploma in **CIVIL ENGINEERING** program under the Maharashtra State Board of Technical Education. The department is committed to developing skilled & competent diploma engineers capable of meeting the challenges of modern infrastructure development. Since its inception, the department has been dedicated to providing quality technical education through a blend of theoretical knowledge, practical training & industry-oriented training. The department is equipped with well-established laboratories, modern surveying instruments, and experienced faculty members who guide students in acquiring technical expertise and professional ethics. Regular site visits, expert lectures, workshops, and project-based learning activities help students gain practical exposure and enhance their problem-solving abilities. The department is equipped with well-established laboratories, modern surveying instruments, and experienced faculty members who guide students in acquiring technical expertise and professional ethics. Regular field visits, expert lectures, workshops, and project-based learning activities help students gain practical exposure and enhance their problem-solving abilities. Our students actively participate in technical competitions, seminars, and co-curricular activities, showcasing their creativity and engineering skills. The department also encourages sustainable engineering practices and innovative solutions for societal development. With a strong focus on academic excellence and holistic development, the Department of Civil Engineering continues to nurture future engineers who contribute significantly to the construction and infrastructure sectors of the nation.

The Principal's Message

I am profoundly happy that the Department of Civil Engineering releases the Newsletter for academic year 2025-26 enumerating the various activities & achievements of our faculty and students. A Newsletter is like a mirror which reflects the clear picture of all activities undertaken by a department.

The department offers excellent academic environment with a team of finest young and dynamic faculty members to inspire the students to develop their technical skills and overall personality. I trust that we face the challenges with full steam and vigour so that our students, the engineers of tomorrow, have a strong presence in the world of Civil engineering. I proudly say that this Newsletter gives the motivations to all the faculty members and students. I appreciate the Department of Civil Engineering for releasing Newsletter of Department of Civil Engineering for academic year 2025-26.

Dr. V. R. Rathi
Principal

Message from H.O.D.

It gives me immense pleasure to present this year's edition of our newsletter. The Civil Engineering Department has always been committed to nurturing competent engineers equipped with technical knowledge, practical skills, and ethical values. Civil Engineering plays a vital role in shaping the infrastructure and development of our nation.

Our department continuously strives to provide quality education through innovative teaching-learning practices, laboratory work, industrial visits, expert lectures, and various co-curricular activities. We encourage our students to explore their creativity, develop problem-solving abilities, and contribute positively to society.

This newsletter reflects the enthusiasm, talent, and achievements of our students and staff. It serves as a platform to showcase their academic accomplishments, technical innovations, creative expressions, and memorable experiences throughout the year.

I congratulate the editorial team, faculty members, and students for their sincere efforts in bringing out this publication. I hope this newsletter inspires every reader to pursue excellence and continue learning with dedication and determination.

Wishing all our students a bright future and continued success in their endeavors.

Mr. S. K. Gorde

CIVIL ENGINEERING DEPARTMENT

NBA ACCREDITED

“Engineering is the closest thing to magic that exists in the world.”

– Elon Musk

VISION

- To develop the rural students as skilled civil engineer to build our nation.

MISSION

- M1: To develop technical skills through trainings.
- M2: To provide civil engineering skills to students through teaching and learning process.
- M3: To enhance career opportunities for students through higher education, industry & entrepreneurship.

Program Educational Objectives (PEOs)

PEO1: To prepare graduates to adopt technical skills to face real life problems in civil engineering field.

PEO2: To understand latest civil engineering technologies that evolve construction growth through teaching learning process.

PEO3: To prepare career oriented students by providing opportunities to work in construction field & higher education.

Program Specific Objectives (PSOs)

PSO1: Implement concepts of Fundamental Engineering & Construction Materials to solve Civil Engineering problems.

PSO2: Planning, identifying and solving the construction site problems.

PSO3: Analyze, design structural systems to achieve sustainable development in Civil Engineering work.
