

About Institute

Padmashri Dr. Vitthalrao Vikhe Patil Institute of Technology and Engineering (Polytechnic), Pravaranagar (Loni) was established in August 1981. It is one of the first of its kind established on no grant basis in the state of Maharashtra. The necessity to establish a technical institution in the rural area was felt long back by the great visionary Late Padmashri Dr. Vitthalrao Vikhe Patil. He was of the firm opinion that it is essential to provide higher educational facilities to the rural youths because they are not in a position to compete with their urban counterparts in the race to secure admission in technical institutions due to lack of proper facilities and guidelines.

Ever since, the Pravara Rural Education Society established in the year 1964, striving to bring the education to the door steps of the rural masses. The Pravara Rural Education Society lays special emphasis on the education of women as well. Late Padmashri had realized that unless the women folk of the rural area are properly educated, real progress of the rural area is not possible. Under the dynamic leadership of the Chairman of Pravara Rural Education Society, Hon'ble Shri. Radhakrishna Vikhe Patil, Minister of Revenue, Maharashtra State, the Pravara Rural Education Society has become one of the prominent institutions in rural area providing educational facilities in almost all faculty.

The education in general and technical education in particular is a vital component of Human Resources Development which has dynamism to change the quality of life in rural area. The institute has therefore played a very significant role in imparting technical education at middle level, particularly to the rural youths. Many of these young engineers have become entrepreneurs and have created employment

opportunities in the rural area, thereby restricting the flow of rural youths to urban areas to some extent. This polytechnic is consistently training the youth to make them employable or to become self-employed person. In addition to running formal diploma courses, we take care of overall development of the students by way of training them on soft-skill, industrial training, industrial visits, expert lecturers & value addition courses etc. Our institute is taking an active part in the overall development of the rural region in its humble way.

Pravara Rural Education Society has been awarded as the Best Educational Institution by Govt. of Maharashtra in 2003 and certified by ISO 9001-2000 organization in 2007, and "Dr.A.P.J.Abdul Kalam innovation in governance" award-2016, (Excellent Education Institute) by Indo-US foundation, New Delhi, in 2016

About Department

Automobile Engineering Department at the Dr. Vitthalrao Vikhe Patil Institute of Technology & Engineering Polytechnic, Loni is a gem of an institute with 100% placement for all interested students.

More than 800 students were recruited by prestigious national and international companies over the past 10 years including 2022-23 and also many students are working in abroad. More than 100 Students are successful entrepreneurs. From the 2010 teachers take tremendous effort for placement. Our alumni students are also good connected our department. We have an enviable track record in sports.

Vision

To develop rural students compatible for career in Automobile engineering

Mission

- To provide technical skills by trainings to meet the industry and society needs.
- To implement effective teaching learning Process
- To develop career oriented students through industry interaction.

About Workshop

The main objective of the Workshop is to enhance the knowledge about the recent trends in automobile. Modern techniques that are implemented in Electric vehicle.

This will help faculty, students to bridge the gap between academics and industry. The program aims to deliver the best contents to the participants to updated technology in Electric vehicle and how it will design and develop.

The program intends to serve the needs of the faculties as well as students in regular teaching learning process and industry for students' point of view.
