

**Pravara Rural Education Society's
Institute of Pharmacy Loni
Tal: Rahata, Dist: Ahilyanagar**

Examination Policy

As per

Pharmacy Council of India

&

Dr. Babasaheb Ambedkar Technological University Lonere

Vision

To be an outstanding institute to produce global pharmacist through quality education programs.

Mission

- To create facilities for quality education in pharmaceutical science and research
- To develop collaborations with industries, hospitals and research institutions to meet professional needs.
- To reach out public through extension activities to meet social responsibilities, moral ethos and fulfill national obligation.

Programme Educational Objectives (PEOs)

PEO1 -To develop professionally competent pharmacist capable of applying knowledge and skills to meet challenges in pharmacy profession

PEO2-To produce pharmacist who work in collaboration with other health professionals to deal with health issues of the society

PEO3 - To impart ethical principles and professional values in student for helping the society

PEO4-To inculcate leadership quality with effective oral and written communication skills.

Introduction

The College's Technical Standards mandate that student pharmacists demonstrate compassion, integrity, and a profound concern for others. Meeting these standards requires maintaining an ethical demeanor commensurate with one's level of education, accepting full responsibility for personal actions, and maintaining emotional stability under stressful academic and clinical conditions.

This examination policy was collaboratively developed with direct input from both faculty and students. Its core purpose is to establish clear expectations for student conduct during assessments and to ensure that all examinations are administered and supervised consistently across the institution. By strictly minimizing opportunities for academic dishonesty, these procedures not only safeguard institutional integrity but also prepare students to meet the rigorous standards of professional licensure.

Ultimately, students are empowered to uphold the highest standards of academic integrity and to expect the same from their peers. While no policy can explicitly cover every scenario, the College and its faculty reserve the right to take reasonable, fair measures to enforce the spirit of this policy—aligning with the professional standards and trust expected of future pharmacy practitioners.

Objectives

Examinations serve as a critical metric to evaluate the degree to which educational outcomes are achieved. To thrive in the 21st century, pharmacy education must extend beyond theoretical knowledge to actively cultivate critical thinking, emotional intelligence, technological competence, social skills, teamwork, and strong character.

Accordingly, this policy aims to:

- **Prioritize Process Over Content:** Balance performance in End Semester Examinations with the holistic development of each student's unique potential.
- **Maintain Global Competitiveness:** Continuously analyze and modernize the examination framework in alignment with international standards, ensuring graduates remain competitive on a global scale.
- **Ensure Assessment Rigor and Equity:** Standardize evaluation protocols to provide a transparent, reliable, and fair testing environment across all programs.

“PRES Institute of Pharmacy is approved by the Pharmacy Council of India (PCI) and affiliated with Dr. Babasaheb Ambedkar Technological University, Lonere. Accordingly, the Institute adheres to the examination regulations, academic policies, and guidelines prescribed by these apex regulatory and affiliating bodies.”
