Subject : Desire to promote the Enrichment of Student's Teaching & learning.

Dear Sir,

We are glad to inform you, that we are in association with your college since May 2010.

We are recruiting students of your college every year during their summer vacation as a "Trainee". The students are working under Employment Promotional Programme. Also the performance of the students during their Training period is very good.

They are working as Apprentice Trainee Or as Trainee with us. Also they are paid Stipend as per the company standards for the work done by them.

After completion of their Tenure as per their category, they are issued with the Certificate for the work done, which would be helpful for them in their future Carrier.

Hoping the same positive response from your end in Future.

Thanks.

Subject : Desire to promote the Enrichment of Student's Teaching & learning.

Dear Sir,

We are glad to inform you, that we are in association with your college since May 2010.

We are recruiting students of your college every year during their summer vacation as a "Trainee". The students are working under Employment Promotional Programme. Also the performance of the students during their Training period is very good.

They are working as Apprentice Trainee Or as Trainee with us. Also they are paid Stipend as per the company standards for the work done by them.

After completion of their Tenure as per their category, they are issued with the Certificate for the work done, which would be helpful for them in their future Carrier.

Hoping the same positive response from your end in Future.

Thanks.

Subject : Desire to promote the Enrichment of Student's Teaching & learning.

Dear Sir,

We are glad to inform you, that we are in association with your college since May 2010.

We are recruiting students of your college every year during their summer vacation as a "Trainee". The students are working under Employment Promotional Programme. Also the performance of the students during their Training period is very good.

They are working as Apprentice Trainee Or as Trainee with us. Also they are paid Stipend as per the company standards for the work done by them.

After completion of their Tenure as per their category, they are issued with the Certificate for the work done, which would be helpful for them in their future Carrier.

Hoping the same positive response from your end in Future.

Thanks.

(Research Excellence Programme USC-INDIA PEIN)

I inform that Dr. Anil Ramchandra Kurhe, Passport No. H2855715 from Padmashri Vikhe Patil College of Arts, Science and Commerce (Affiliated to University of Pune) Maharashtra, India. He was granted the Scholarship for short search stay from 05th May, 2013 to 05th June, 2013 (1 Month) at the University of Santiago de Compostela, Spain.

Dr. Anil Kurhe was working under my supervision in the Department of Cell Biology, during the month he was learning and looking for the most optimal histological protocols and techniques (fixation, sectioning in cryostat and rotation microtome, staining of tissues for optical and electron microscopy) to preserve the best histological of shellfish tissue.

During this tenure, I found him to be very enthusiastic, research oriented and hard working. I am very much pleased to give this letter on his successful completion of research stay under my supervision. I wish him bright future for his career.

Programme Information:

Programme	Research Excellence Program University of Santiago de Compostela (USC)- India (PEIN)
Mobility Period	One Month (05/05/2013 to 05/06/2013)

The University of Santiago de Compostela, within the Campus of Excellence Project – Campus Life launches a session of short research stays for professors and researchers of research centers in India. The program has the goal of meeting one of the largest current demands, the internationalization of investigation, the promotion of cooperative projects and programs, and joint investigation. The program is based on a plan of short-term mobility, up to one month, allowing for a professor or researcher from India to participate in this activity without having to completely abandon their work at home.

I had joined a Research Excellence Program USC- India (PEIN) fellowship from 05/05/2013 for one month. During the stay, I wrote a research articles with my research coordinator Dr. Carlos Ferrás Sexto related to elucidate the knowledge of the basic research issues, ecology, respect to environment, human health and natural-resource policy concerns. The core space can show the highly differentiated brand agriculture and be sustained in the periphery even when the accessibility of the core market is not particularly good. This result will gives support for promoting innovation in rural area.

In this month, I try to understand and learn the work of Granxafamiliar, rural development indigators, socio-economic development, energy planning, irrigation, rural economy, resource development and its management, natural hazards, environmental impact assessment evaluation, institutional factors, research programs etc.

Simultaneously we are working on some research article which is already under revision:

1. Agriculture Landuse and Cropping Pattern in Shrigonda Tahsil,
Ahmednagar District, Maharashtra (India)

Other article is in progress and we think that, we will be communicating shortly. Also during this month we have established contact with Dr. S. R. Walunj, (Principal, Padmashri Vikhe Patil College, Pravaranagar, Maharashtra, India) to implement a coordinated research proposal between Pravara Rural Education Society and University of Santiago de Compostela, Spain related with the rural development, women's self help groups, marketing techniques, new agricultural techniques, banking, finance which will be helpful for rural community in India. In this period, I could learn some scientific techniques which will help me for my future endeavor. I am trying to implement a new research line in India, which will needs to be completed in the future. I had considered this month as an initial introductory research visit for me.

It was indeed an honor for me to be a part of this great and prestigious University. I am so grateful to the University for giving me a great opportunity to work for a month. Research stay in the University of Santiago de Compostela was memorable and fantastic. My visit was fruitful and productive; my coordinator was very cooperative and hard worker so it was a great pleasure for me to work with him. During the research stay Yolanda Garcia Vazquez, Marina Pose Garcia (GIS-T) and everybody help me a lot in every sense which I could never so forget.
