AIDS Awareness Programme

Clean and Healthy India Campaign: 2017-18

NCC and NSS Unit of the college co-cordially organized the Clean and Healthy India Campaign. The NSS volunteer and NCC cadets has done campus cleaning. They have cleaned the main building area, play ground, library building area, parking area etc.

In this campaign following programmes were conducted.

- During this period under cleanliness campaign Grounds, Lawns, Roads, Laboratories, Library, Mango garden, Botanical garden and classrooms were cleaned by the NSS volunteers and NCC Cadets.
- The oath of cleanliness was taken by the NSS volunteers and NCC Cadets.
- Loni Village Road sides, and adopted village were clean.

Dr. P. M. Dighe told that, Cleaning plays a vital role in our daily lives. Be it personal hygiene, such as washing our hands before we eat or covering our mouths when we cough, or setting a standard for environmental cleanliness, effective cleaning is our first line of defense against viruses and infectious diseases. While in healthcare environments the practical value of cleaning is widely accepted, in other fields such as education, property management, foodservice and hospitality, it is seen only as a necessary expense. Most building owners and facility managers view cleaning as a cost rather than an investment. As cleaning solution providers, we need to explain to executives, especially those “who hold the purse strings,” that maintaining a clean environment can pay for itself many times over, and often in surprising ways.

In this activity 243 NSS Volunteers, 103 NCC Cadets and 14 programme officers were participated.

Blood Donation Camp

NCC and NSS Unit of the Padmashri Vikhe Patil College of Arts, Science and Commerce, Pravaranagar organized the Blood Donation Camp in collaboration with Pravara Medical Trust Blood Bank, Loni at 1st September 2017. In this camp Cadets of NCC Unit, Volunteers of National Service Scheme, Students, Teaching and Non-teaching staff of the college took active participation for Blood Donation.

In this camp total 120 blood bags were collected, out of them 57 bags were collected from NCC cadets and 63 blood bags were collected from the NSS Volunteers. For this blood donation camp 11 programme officers were present for the camp.

Doctors from Pravara Medical Trust, Loni told the detail information and benefits of the blood donation in the beginning of the camp. Doctor told the cadets, Health benefits of donating blood include good health and a reduced risk of cancer and hemochromatosis. It helps in reducing the risk of damage to liver and pancreas. Donating blood may help in improving cardiovascular health and reducing obesity as well. Every day blood transfusions take place and save lives of many people all over the world.

During this camp Principal Dr. P.M. Dighe told that, Blood Donation is the best donation among all. We should donate the blood for twice in a year. Blood donation not only makes the receiver's life good but also helps the donor to maintain good health.

Blood Donation Camp

(2016-17)

NCC and NSS Unit of the Padmashri Vikhe Patil College of Arts, Science and Commerce, Pravaranagar organized the Blood Donation Camp in collaboration with Pravara Medical Trust Blood Bank, Loni at 27th July 2016 and 5th January 2017. In this camps Cadets of NCC Unit, Volunteers of National Service Scheme, Students, Teaching and Non-teaching staff of the college took active participation for Blood Donation. In this camp total 48 blood bags were collected from NCC cadets.

In this camp total 178 blood bags were collected, out of them 48 bags were collected from NCC cadets and 130 blood bags were collected from the NSS Volunteers. For this blood donation camp 12 programme officers were present for the camp.

Doctors from Pravara Medical Trust, Loni told the detail information and benefits of the blood donation in the beginning of the camp. Doctor told the cadets, one has to wait for 56 days or 8 weeks between whole blood donations. The waiting period is 112 days or 16 weeks between power red donations. Avoid donation if you're suffering from any disorders, and consult your doctor before doing it. You can donate one unit or 350 ml of blood every 8 weeks. Organizations such as American Red Cross organize donation camps where one can participate and donate blood. You can also donate blood at any hospital. Donor's age must be between 18-60 years and their weight should be more than 45 kgs to be able to donate blood. Any healthy person can donate blood after the required gap of 56 days. This wait time helps replenish the blood levels in the donor's body. Individuals below the age of 18 and above 60 and with weight lower than 110 lbs cannot donate blood. A person with active infection, acute infection or diseases like HIV AIDS should not donate blood. It is advisable to consult a doctor and share medical history before going for blood donation.

During this camp Principal Dr. P.M. Dighe told that, the joy of saving someone's life is incomparable to anything else in this world. You may eat, drink, dance and make merry in all possible ways and yet the joy and satisfaction received from the altruistic task of saving someone's life cannot be compared to anything at all.

Blood Donation Camp (2015-16)

NCC and NSS Unit of the Padmashri Vikhe Patil College of Arts, Science and Commerce, Pravaranagar organized the Blood Donation Camp in collaboration with Pravara Medical Trust Blood Bank, Loni at 26th September 2015. In this camp Cadets of NCC Unit, Volunteers of National Service Scheme, Students, Teaching and Non-teaching staff of the college took actively participation for Blood Donation.

In this camp total 119 blood bags were collected, out of them 48 bags were collected from NCC cadets and 71 blood bags were collected from the NSS Volunteers. For this blood donation camp 13 programme officers were present for the camp.

Doctors from Pravara Medical Trust, Loni told the detail information and benefits of the blood donation in the beginning of the camp. Doctor told the cadets, Blood donation is quite easy. Neither do you suffer from acute pain, nor does it take a long time. Just a prick of the needle on your arm and within a few minutes and the blood would be collected in the storing device.

During this camp Principal Dr. P. M. Dighe told that, People donate blood on different occasions for different reasons. Sometimes, some family member may be hospitalized and may need blood immediately. In some countries, people are paid for donating blood and they even donate blood for monetary incentives. Also, there are people with altruistic mentality, who know the importance of blood donation for the betterment of the people and their society. Some people are familiar with the health benefits of donating blood and therefore, keep donating blood at regular intervals.

Blood Donation Camp (2014-15)

NCC and NSS Unit of the Padmashri Vikhe Patil College of Arts, Science and Commerce, Pravaranagar organized the Blood Donation Camp in collaboration with Pravara Medical Trust Blood Bank, Loni at 1/10/2014. In this camp Cadets of NCC Unit, Volunteers of National Service Scheme, Students, Teaching and Non-teaching staff of the college took actively participation for Blood Donation.

In this camp total 150 blood bags were collected, out of them 57 bags were collected from NCC cadets and 93 blood bags were collected from the NSS Volunteers. For this blood donation camp 12 programme officers were present for the camp.

Doctors from Pravara Medical Trust, Loni told the detail information and benefits of the blood donation in the beginning of the camp. Doctor told the cadets, Blood donation is quite easy. Neither do you suffer from acute pain, nor does it take a long time. Just a prick of the needle on your arm and within a few minutes and the blood would be collected in the storing device. Before donating blood, it is advisable for everyone to know the importance of blood donation, its facts and blood donation rules. One of the first, necessary blood donation requirements is to register your name for donating your blood. The consent of the donor is very significant here. During this camp Principal Dr. P. M. Dighe told that, People donate blood on different occasions for different reasons. Sometimes, some family member may be hospitalized and may need blood immediately. In some countries, people are paid for donating blood and they even donate blood for monetary incentives. Also, there are people with altruistic mentality, who know the importance of blood donation for the betterment of the people and their society.

Blood Donation Camp (2013-14)

NCC and NSS Unit of the Padmashri Vikhe Patil College of Arts, Science and Commerce, Pravaranagar organized the Blood Donation Camp in collaboration with Pravara Medical Trust Blood Bank, Loni at 9th October 2013. In this camp Cadets of NCC Unit, Volunteers of National Service Scheme, Students, Teaching and Non-teaching staff of the college took active participation for Blood Donation.

In this camp total 93 blood bags were collected, out of them 29 bags were collected from NCC cadets and 64 blood bags were collected from the NSS Volunteers. For this blood donation camp 11 programme officers were present for the camp.

Doctors from Pravara Medical Trust, Loni told the detail information and benefits of the blood donation in the beginning of the camp. Doctor told the cadets, Blood donation is a simple, four-step process: registration, medical history and mini-physical, donation and refreshments. It is a safe process, and a sterile needle is used only once for each donor and then discarded. The actual blood donation typically takes less than 10-12 minutes. The entire process, from the time you arrive to the time you leave, takes about an hour and 15 minutes. The average adult has about 10 pints of blood in his body. Roughly one pint is given during a donation. A healthy donor may donate red blood cells every 56 days, or double red cells every 112 days. There are four types of transfusable products that can be derived from blood: red cells, platelets, plasma and cryoprecipitate. Typically, two or three of these are produced from a pint of donated whole blood — hence each donation can help save more than one life.

During this camp Principal Dr. S. R. Walunj told that, You don't need a special reason to give blood; you just need your own reason. Some of us give blood because we were asked by a friend. Some know that a family member or a friend might need blood

some day. Some believe it is the right thing we do. The number one reason donors say they give blood is because they “want to help others.” Whatever your reason, the need is constant and your contribution is important for a healthy and reliable blood supply. And you’ll feel good knowing you’ve helped change a life. While the most obvious health benefit of donating blood is the wonderful feeling derived from giving something vital to someone who needs it, the benefits of donating blood may extend far beyond this to having a positive impact on the donor’s health.
